JOB OBJECTIVE

I am currently in the second year of a BUT Informatique (Bachelor's Degree of Technology in Computer Science) at IUT Annecy, France. I specialise in software development and project management, with a strong interest in the Product Owner role. I am looking for an internship in an international environment in order to broaden my vision and to work with different methods and cultures. Driven by teamwork and technology, I am able to organise and manage several projects at once. This experience would be a great opportunity to develop the skills I need to create my own company in the future.

WORK EXPERIENCE & UNIVERSITY PROJECTS

Jun – Aug 2026
2 months

Université Savoie Mont Blanc – IUT Annecy, Annecy-le-Vieux, France

2025

French Baccalaureate STI2D, with high honours

Technological high school diploma specialised in industrial science, technology and sustainable development
Louis Lachenal High School – Argonay, France

MISCELLANEOUS

Photo & video — Self-taught mountain photography and filming: making ski-season films for my friends (shooting, editing, soundtrack selection, colour grading) since 2 years.

Sports — Downhill mountain biking and freeride skiing in Portes du Soleil; Hyrox and strength training. I enjoy pushing my limits and training regularly.

Reading & self-learning — Books on entrepreneurship and personal finance (e.g. Rich Dad Poor Dad, R. Kiyosaki); self-training in AI tools since 2025.
